

## Microbiological Efficacy Summary

| Sporicidal | Test norm | Test type  | Organism                     | Log reduction required | Log reduction achieved | Clean or Dirty | Contact time |
|------------|-----------|------------|------------------------------|------------------------|------------------------|----------------|--------------|
|            | EN 13704  | Suspension | <i>Bacillus subtilis</i>     | > 3 log                | > 3.12 log             | Clean 1        | 5 min        |
|            |           |            | <i>Clostridium difficile</i> | > 3 log                | > 6.45 log             | Clean 1        |              |

| Mycobactericidal           | Test norm | Test type  | Organism                    | Log reduction required | Log reduction achieved | Clean or Dirty | Contact time |
|----------------------------|-----------|------------|-----------------------------|------------------------|------------------------|----------------|--------------|
|                            | EN 14348  | Suspension | <i>Mycobacterium terrae</i> | > 4 log                | 5.40 log               | Clean 1        | 5 min        |
|                            |           |            | <i>Mycobacterium avium</i>  | > 4 log                | > 7.58 log             | Clean 1        |              |
|                            | EN 14204  |            | <i>Mycobacterium avium</i>  | > 4 log                | < 4.14 log             | Dirty 1        |              |
| <i>Mycobacterium bovis</i> |           |            | > 4 log                     | > 5.11 log             | Dirty 1                |                |              |

| Virucidal | Test norm          | Test type  | Organism           | Log reduction required | Log reduction achieved | Clean or Dirty | Contact time |
|-----------|--------------------|------------|--------------------|------------------------|------------------------|----------------|--------------|
|           | EN 14476           | Suspension | Canine Parvovirus  | > 4 log                | 2.83 log               | Dirty 2        | 5 min        |
|           |                    |            | Feline Calicivirus | > 4 log                | ≥ 4.50 log             | Dirty 3        | 2 min        |
|           |                    |            | Adenovirus         | > 4 log                | 5.50 log               | Dirty 3        |              |
|           |                    |            | Poliovirus         | > 4 log                | 5.17 log               | Dirty 3        |              |
|           |                    |            | Murine Norovirus   | > 4 log                | 4.16 ± 0.538 log       | Clean 1        | 5 min        |
| EN 14675  | Bovine enterovirus |            | > 4 log            | 4.21 log               | Dirty 1                |                |              |

| Fungicidal | Test norm               | Test type  | Organism                        | Log reduction required | Log reduction achieved | Clean or Dirty | Contact time |
|------------|-------------------------|------------|---------------------------------|------------------------|------------------------|----------------|--------------|
|            | EN 13624                | Suspension | <i>Aspergillus brasillensis</i> | > 4 log                | > 4.44 log             | Clean 1        | 5 min        |
|            |                         |            | <i>Candida albicans</i>         | > 4 log                | 4.48 log               | Clean 1        |              |
|            |                         |            | <i>Candida albicans</i>         | > 4 log                | 4.48 log               | Dirty 3        |              |
|            | EN 1657                 |            | <i>Candida albicans</i>         | > 4 log                | > 4.33 log             | Dirty 1        |              |
|            |                         |            | <i>Aspergillus brasillensis</i> | > 4 log                | < 3.12 log             | Dirty 1        |              |
| EN 13697   | <i>Candida albicans</i> |            | > 3 log                         | > 3.4 log              | Clean 1                |                |              |

|                               | Test norm   | Test type  | Organism   | Log reduction required        | Log reduction achieved | Clean or Dirty | Contact time |
|-------------------------------|---|------------|--|-------------------------------|------------------------|----------------|--------------|
| <b>Bactericidal</b>           | EN 14561  | Suspension | Multidrug-resistant <i>Acinetobacter baumannii</i> (MDRAB) | > 5 log                       | > 5.61 log             | Clean 1        | 5 min        |
|                               |   |            | <i>Pseudomonas aeruginosa</i>                              | > 5 log                       | > 6.37 log             | Clean 1        |              |
|                               |   |            | <i>Staphylococcus aureus</i>                               | > 5 log                       | > 6.66 log             | Clean 1        |              |
|                               |   |            | <i>Enterococcus hirae</i>                                  | > 5 log                       | > 6.95 log             | Clean 1        |              |
|                               | EN 1656   |            | <i>Pseudomonas aeruginosa</i>                              | > 5 log                       | > 5.55 log             | Dirty 1        |              |
|                               |   |            | <i>Proteus vulgaris</i>                                    | > 5 log                       | > 5.49 log             | Dirty 1        |              |
|                               |   |            | <i>Staphylococcus aureus</i>                               | > 5 log                       | > 5.19 log             | Dirty 1        |              |
|                               |   |            | <i>Enterococcus hirae</i>                                  | > 5 log                       | > 5.32 log             | Dirty 1        |              |
|                               |   |            | <i>Streptococcus equi (strangles)</i>                      | > 5 log                       | > 5.19 log             | Dirty 1        |              |
|                               |   |            | <i>Salmonella enterica</i>                                 | > 5 log                       | > 5.36 log             | Dirty 1        |              |
|                               |   |            | <i>Escherichia coli</i>                                    | > 5 log                       | > 5.31 log             | Dirty 1        |              |
|                               |   |            | EN13727  | <i>Pseudomonas aeruginosa</i> | > 5 log                | > 5.33 log     |              |
|                               | <i>Staphylococcus aureus</i>  |            |  | > 5 log                       | > 5.07 log             | Dirty 3        |              |
|                               | <i>Enterococcus hirae</i>   |            |  | > 5 log                       | > 5.10 log             | Dirty 3        |              |
|                               | Vancomycin-resistant <i>Enterococcus faecium</i> (VRE)              |            |  | > 5 log                       | > 5.21 log             | Clean 1        |              |
|                               | Multidrug-resistant <i>Acinetobacter baumannii</i> (MDRAB)          |            |  | > 5 log                       | > 5.09 log             | Clean 1        |              |
|                               | <i>Pseudomonas aeruginosa</i>                                       |            |  | > 5 log                       | > 5.21 log             | Clean 1        |              |
|                               | <i>Klebsiella pneumoniae</i> Carbapenemase (KPC) Enterobacteriaceae |            |  | > 5 log                       | > 5.26 log             | Clean 1        |              |
|                               | EN 13697  |            | <i>Escherichia coli</i>                                    | > 3 log                       | > 4.9 log              | Clean 1        |              |
| <i>Pseudomonas aeruginosa</i> |   | > 3 log    | > 4.5 log  | Clean 1                       |                        |                |              |

### Defra approval

This disinfectant has been approved for disinfection of inanimate surfaces where an approved product is required to be used under the control legislation for the following specific disease(s) orders

**Foot-and-mouth disease** at the dilution rate of one part of this preparation plus 50 parts of water

**Swine vesicular disease** at the dilution rate of one part of this preparation plus 50 parts of water

This approval is granted under the Diseases of Animals (Approved Disinfectants) Orders made by the Secretary of State for Environment, Food and Rural Affairs in England, Scottish ministers in Scotland and Welsh ministers in Wales. For confirmation of continuing approval refer to the Defra list of approved disinfectants at <http://disinfectants.defra.gov.uk>. The contents of this container are guaranteed by the manufacturer to be of the same composition and quality as the sample submitted for approval testing.

### Clean/Dirty conditions key

**Clean 1:** 0.3 g/L bovine albumin

**Dirty 1:** 3.0 g/L bovine albumin

**Dirty 2:** 0.6g/L bovine serum albumin, 0.3g/L sheep erythrocytes

**Dirty 3:** 3.0 g/L bovine albumin + 3 ml/l sheep erythrocytes
